

**CITY OF ALBURNETT**  
**OFFICE OF CITY CLERK**  
**ALBURNETT, IA 52202**

To whom it may concern:

The repairs of the City water main have been completed. The city water mains were flushed to help maintain water quality. Homeowners may want to flush the lines in your home to remove any sediments that may have been loosened from the main water line. The sediments do not pose any health concerns but they may affect the taste and color of the water. To flush your home water lines just turn flush the toilet until the water is clear or turn on a cold water faucet that does not have a filter and let run several minutes. Any questions or concerns call City Hall at 842-2692.

Thank you
